

Darts Practice Report 2025-04-06

This report contains analysis of my darts practice routine.

The data was gathered from the `practice_data.db` database, and visualisations created showing performance against the objectives of each game.

Plotly was used to create the visualisations due to its dedicated table visualisation and easy chart formatting.

Analysis Objectives

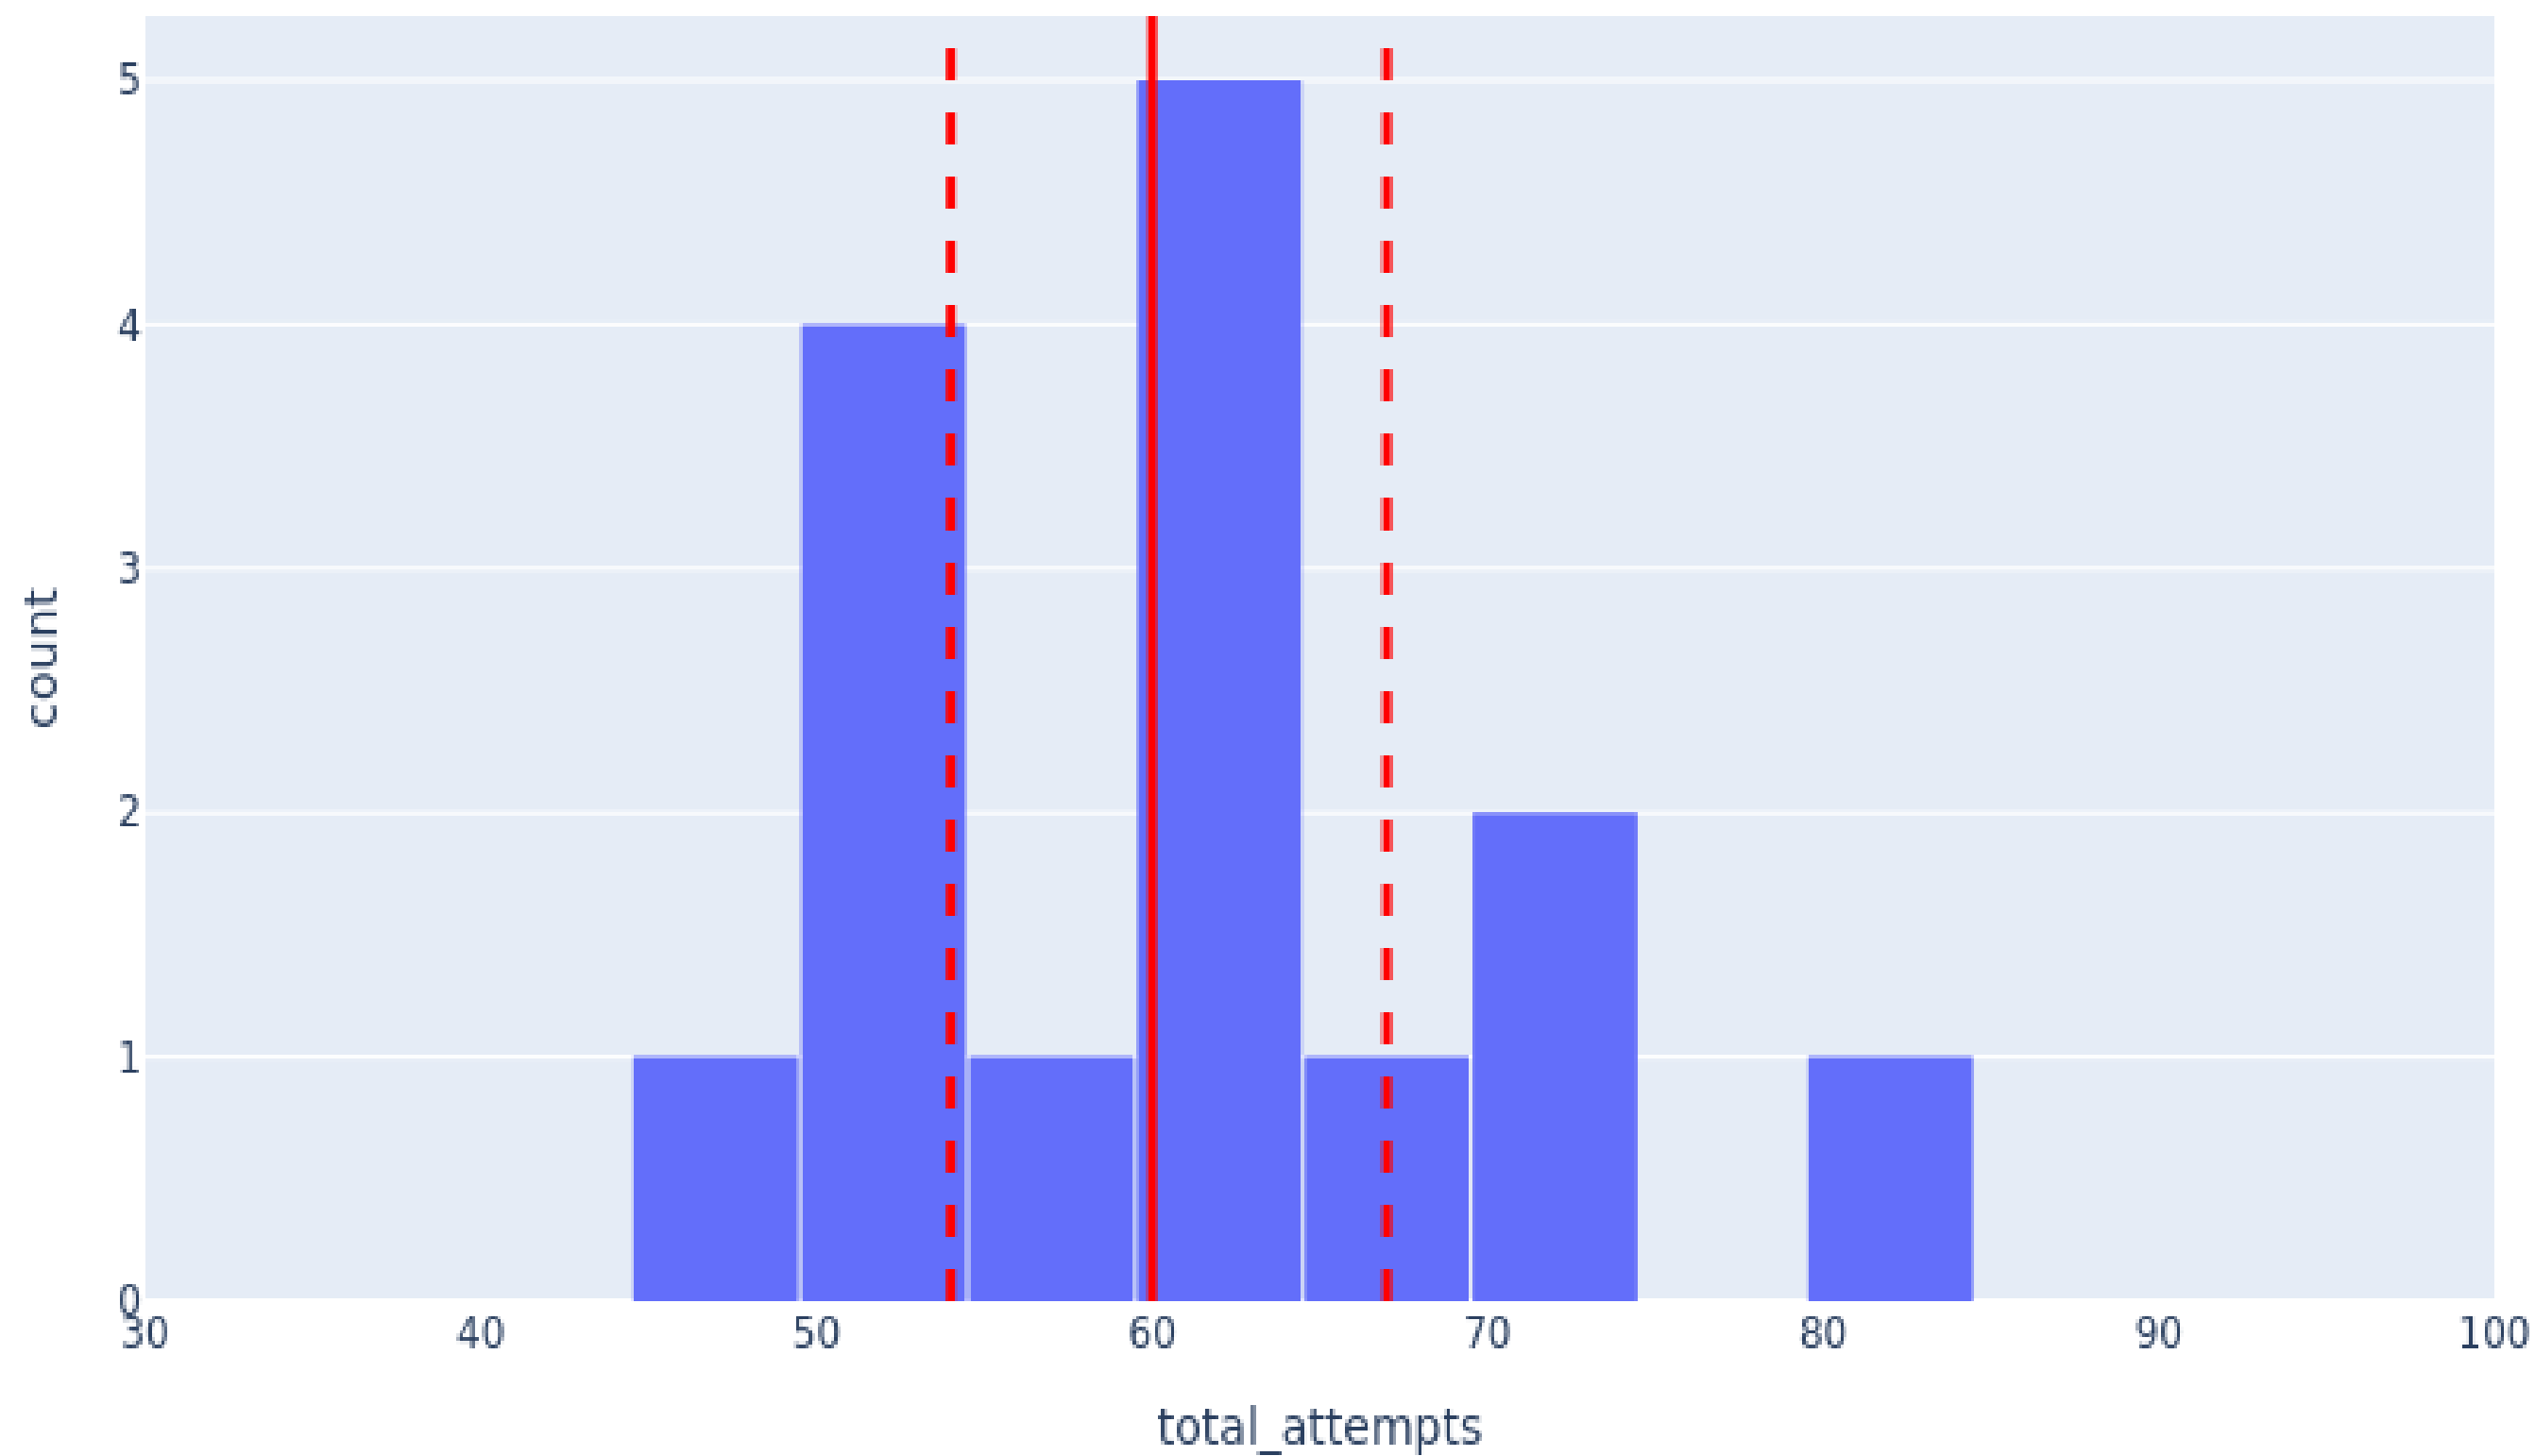

The purpose of this report is to assess performance for each practice game and identify areas for improvement. The main objectives can be defined as:

- Reduce number of attempts at each single number
- Increase number of hits at each double number
- Improve scoring average
- Improve checkout percentage
- Increase number of legs won

Table of Contents
